

**FACULTAD DE INGENIERÍA MECÁNICA
DOCTORADO EN CIENCIAS DE LA MECÁNICA**

**ACTA DE LA SESIÓN DEL COMITÉ DOCTORAL DEL DOCTORADO EN CIENCIAS DE LA
MECÁNICA DEL VIERNES 10 DE FEBRERO DEL 2017**

En Quito, el 10 de febrero de 2017, a las 10:00, en la Sala de Sesiones de Posgrados de Ingeniería Mecánica, se reúnen los miembros del Comité Doctoral: Erick de Moraes Franklin, Universidade Estadual de Campinas (vía Skype) Víctor Hidalgo, Esteban Valencia y Freddy Ordóñez para tratar el siguiente orden del día: proceso de admisión, costos del programa, líneas de investigación y contratación de profesores para el Doctorado en Ciencias de la Mecánica. Preside la sesión el Dr. Freddy Ordóñez.

PUNTO 1:

Se realiza la conexión vía skype con el Dr. Moraes con el objetivo de informarle sobre el funcionamiento del programa del Doctorado en Ciencias de la Mecánica, con lo cual, el Dr. Moraes envía los siguientes comentarios:

Attached you will find the presentation of the doctoral program in Mechanical Sciences.

As according before, we would like to have your opinion about the organization of the program, specially in the admission process and in the costs.

For that, we can propose a meeting thursday 2 February or thursday 9 February. Please, lets us to know which day works better for you.

Slide 2: What about shorter names for the research areas? For instance: Energy, Materials and Manufacturing.

Slide 7, concerning the formation costs, I understand that you have this fee. However, is there any possibility to make the formation free of charge (or at lower charges)? This would attract more students, and the program would select only the very best.

Slide 7, concerning the subsistence and research costs, is there a way to cover these costs for the young advisors? If not, it will be very difficult for them.

Slide 9, concerning the hiring of researchers: yes, I think that it is a good idea to hire more people, mainly because it is necessary a better balance. Today, 82% work with Energy, 18% with Materials, and 0% with Manufacturing.

La sesión se termina a las 11h00.

Lo certifica,

Dr. Freddy Ordóñez
